Re/ Buckingham County ? J. F. Love jr. Hazardous Waste ( Superfund ) site.

Ms. Malissa Whittington ( 3HW41 )  
Remedial Project Mgr.  
U. S. Epa Region III  
Philadelphia PA. 19107

Dear Ms. Whittington;

I am sorry for the delay in response to your telcon. of last week, but we have been blocked up by an ice storm, and yesterday was the first mail service since land Friday.

Since the plan that EPA now proposes to remedy the Love site, is so different from the plan first proposed, it seems that what is planned for the site is almost a new beginning. Therefore I beleive a public hearing on the present remedy for the site is in order, and by this writing I request a public hearing.

It would be most helpful if EPA could or would put an expert on the vapor extraction method on your panel at such a meeting. A general discription of the method, and answers to questions from the audience would be most appreciated.

yours truly,

*Carroll Gillispie*
